## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Karl et al 4,310,937. Karl shows a bottom tensioned riser system for conveying petroleum from an offshore oil well on a sea floor to a platform floating above, the riser system having a tubular conduit 36 suspended from the platform and having a bottom end extending downward therefrom in a substantially vertical direction and toward the sea floor; and, a connection 12 and tensioning assembly disposed at the bottom end of the conduit, the connection and tensioning assembly having a flexible jumper 26 connecting the bottom end of the conduit to the well; a weight applying (the weight of element 12) a vertical tension in the conduit; and, means 16 for constraining the bottom end of the conduit against horizontal movement, while enabling the conduit to move freely in a vertical direction (limited vertical movement controlled by the chain) and to pivot (pivotal connection of the chain 14 to base 16) freely about the bottom end thereof in response to motions of the platform.

***Allowable Subject Matter***

3. Claims 2-12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
